

Easily add rich video content to your website and increase conversion.

CarFlix™ HumanVoice videos automatically create and display captivating, full-motion videos with human voice narration, context sensitive music, and a high quality video presentation that improves inventory branding and merchandising.

Vehicle List Page

All CarFlix videos are Video SEO-friendly, and work with traditional SEO to push your video result to the top of search engines

Automatically creates SEO-friendly XML sitemaps for every video

View options, similar videos, schedule test drive, and get quote

View videos directly from vehicle listings

Key Benefits

Generate More Leads

CarFlix video player includes an integrated lead form, allowing customers to submit leads without leaving the page.

Auto-Generated Videos

Vehicle videos are automatically generated in about an hour and posted live to your website.

Free Video Exports

CarFlix videos are ready to export to YouTube, Autotrader, Cars.com, and HomeNet at no additional charge.

Brand Your Dealership

All CarFlix vehicle videos are branded with your dealership's name, logo, and contact information.

Add a Custom Video Intro/Outro

Dealers can upload a custom intro/outro video, effectively creating a commercial for your dealership at a fraction of the cost. (Video Intro/Outro plays 1 time per session to reduce bounce rates).
