

Reach the millions of shoppers browsing eBay®.

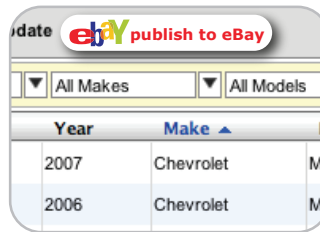

Achieve maximum exposure for your dealership and vehicle inventory by marketing to the millions of shoppers browsing eBay®.

point » click » list

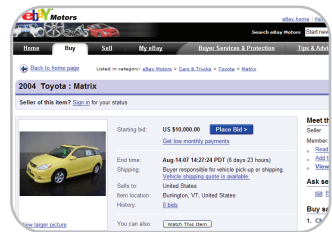

Now posting your vehicles to eBay® is as simple as a click.

Your Inventory »

One Click »

Accessible Worldwide

eBay® reports that every **60 seconds** another vehicle is purchased sight unseen on their auction site, and **70%** of those are delivered to out-of-state customers.

Key Benefits

Maximize Dealership Visibility

Dealer.com integration with eBay® provides seamless integration with the popular auction site and puts your inventory in front of the 11 million unique buyers that visit every month.

Generate Listings Directly from ControlCenter™

With the click of a button, auction listings are published from within ControlCenter.

Customize the Look and Feel Right From ControlCenter

Each template is completely customizable. Modify text, borders and images right from ControlCenter.

Manage Listings

Managing listings is easy with statistics such as current price, bid numbers, starting/ending times, item number and high bidder identity pulled into ControlCenter. A summary of your total costs is also available, making it easy to stay within budget.
