

The best way to market every vehicle in your inventory.

Successful inventory marketing requires organization, integration and automation. Dealer.com's Inventory Marketing Package helps you do all three with easy-to-use tools that streamline the process to organize, track and publish your inventory online.

Key Benefits

Unlimited Inventory Syndication/Exports

Achieve maximum retail exposure by exporting your inventory to any third party inventory listing you use.

Integration with eBay®

Quickly build and launch eBay vehicle auctions.

Template Generator for Craigslist

Market your vehicle inventory to the millions of unique buyers shopping on Craigslist.

Window Stickers and Buyers Guides

Print high quality, colorful, customizable window stickers and buyer's guides in just a few easy clicks.

Contact Manager with Third Party Integration

Contact Manager puts your entire contact database at your fingertips, so you can track and respond to leads generated from your website and other sites and third parties.
