

# Take charge of your email network.

SmartMail™ is an efficient, convenient, email system for dealers who prefer to manage this mission-critical service in-house.

## Key Benefits

### Ultra-Reliable Email Hosting

Trust in our extensive experience as an email provider for automotive dealerships instead of paying a third party for hosting, storage and administration. This cost-effective tool integrates seamlessly with other Dealer.com products, providing a simpler yet more comprehensive email solution for your dealership.

### Simple Email Management in ControlCenter™

Along with other features built into ControlCenter, SmartMail allows fast, intuitive editing of email accounts, email aliases, passwords, forwarding commands and vacation messages.

### Make Changes In Real-Time

Reduce reliance on third party email hosts and manage all email accounts, passwords and forwarding within ControlCenter.

### Fast Account Creation

Make immediate adjustments to reflect changes in staff, or add aliases to existing accounts to ensure the broadest email exposure. Keep your email system current and properly aligned with your organizational structure.

### Auto-Response Vacation Messages and Forwarding

Maintain communication with your customers and associates while you are away using auto-response vacation messages. Automatically forward incoming messages to your mobile device for fast retrieval even when away from the office.

### Secure Access

Be assured that only designated staff within your dealership will have access to SmartMail's powerful back-end features.
