

Engage your customers and boost your SEO with VideoBlog.

Dealer.com has combined its cutting-edge video technology with our integrated blog to create the industry's ONLY VideoBlog™! VideoBlog automatically generates a blog post for every video on your website, complete with SEO-friendly URLs, a transcript of the video, links to your vehicle details pages and more!

Blog search

Videos and SEO content are automatically created for every vehicle

Blog search by date

Use fully integrated RSS and ATOM feeds

Vehicles are sorted into a word cloud, drawing attention to the most popular vehicles

Key Benefits

Auto-Generate VideoBlog Posts for Every Vehicle

Dealer.com is the only provider in the industry to offer an automated VideoBlog which creates hundreds of additional pages of SEO-friendly vehicle listings indexed by our integrated Video Sitemap.

Transcripts for Every Vehicle

Transcripts are generated for every vehicle video creating thousands of SEO-friendly keywords, based on the narrated vehicle options and description.

Video Sitemap

VideoBlog improves our dealer's integrated video sitemaps by creating hundreds of unique video blog posts indexable by the search engines.
